

Give your players the very best!

CHOOSE KANZAKI TOP COATED TICKETS

Low quality TITO tickets lead to poor experience

In recent years, the Australian gaming market has seen an influx of non-approved ticket-in, ticket-out (TITO) paper causing:

- High machine downtime
- Increased maintenance costs
- Poor customer experience

You should only use top-coated thermal papers for your electronic gaming machines.

Charters supply top-coated TITO Tickets to the entertainment industry's leading venues, including casinos, gaming venues and sports clubs. We are the exclusive agent for Graphic Controls in Australia, the world's largest supplier with over 70% of the global market share.

OEM's specify top coated paper tickets

Kanzaki top coated thermal paper, which is approved and recommended by printer manufacturers JCM, Transact and Nanoptix guarantees:

- ✓ Increased thermal print head life due to the increased smoothness of the paper from the extra layer of coating.
- ✓ High quality printed ticket image and barcode quality, which eliminates scanning errors.

	Top Coated Ticket Charters Paper	Non-Top Coated Ticket Competitor Paper	Potential Risks
Paper Grade	<ul style="list-style-type: none"> ✓ International Gaming Technology (IGT) approved eg. FutureLogic, Transact, Nanoptix ✓ Maximum 20 year archival life 	<ul style="list-style-type: none"> ✗ Not International Gaming Technology (IGT) approved ✗ Maximum 8 year archival life 	<ul style="list-style-type: none"> ✗ May void printer warranty
Image Quality	<ul style="list-style-type: none"> ✓ Superior image quality ✓ Excellent text & readability 	<ul style="list-style-type: none"> ✗ Increased errors when scanning barcodes ✗ Poor image quality 	<ul style="list-style-type: none"> ✗ High barcode scanning error rates
Smoothness	<ul style="list-style-type: none"> ✓ Smoother coating to ensure print head longevity 	<ul style="list-style-type: none"> ✗ Uneven coating can cause mechanical abrasion and printer failure 	<ul style="list-style-type: none"> ✗ Increased downtime and replacement costs
Durability	<ul style="list-style-type: none"> ✓ Protection against external influences such as water, alcohol and hand sanitiser. 	<ul style="list-style-type: none"> ✗ No protection against external influences 	<ul style="list-style-type: none"> ✗ Unreliable play ✗ Faulty scanning
